WHALE SPRAY, THE FUTURE OF WELDING.

Nowadays as a result of the globalization, world markets are constantly changing, both on the consumers and the corporations' sides. When it comes to consumers, there is an increase on the demand of higher qualities, tailored products and sustainability origins. Then, on the other hand there are companies evolving to meet these standards to offer, instead of a simple product, a full service that guarantees optimum results and total comfort, always taking into consideration the safety of its users and the environment.

More than **35 years** of expertise **formulating and manufacturing** Welding chemicals allowed us to understand our customers needs entirely and offer them exactly what they need, allowing each part of the team WS to have at their disposal multiple reliable solutions for their specific needs.

At **Whale Spray**, we are committed with our job and this led us to create a solution for each and every one of the need of the Welders and the Welding processes, in order to ensure that, with WS, Welders will have at their disposal the **widest range of high quality chemical products** for the Welding World.

When it comes to quality, as manufacturers we have a total control from the raw materials and filling processes to the final products and distribution, allowing us to oversee the whole process and be able to offer just the **TOP quality**.

At last but not least, in terms of environmental sustainability we evolve every day, increasing the recycled and recyclable percentage of all our products and creating very efficient formulas so that with the **less environmental impact** our customers can achieve the best results.

We have a clear mission, to become the chemical company for Welding processes that adapts better and faster to the changes and demands of the Welding World.

We invite you to be part of the future...
Welcome to the team **Whale Spray!**

Enric Orduna
CEO Whale Spray

WATER & OIL BASE ANTISPATTERS

WS 1801 G/WORKS **BIO**

Non-flammable Antispatter.

High performance anti-spatter that provides a fast, easy and safe way to prevent spatter adhesion on any metal surface and all kind of torches. Biodegradable, compatible with painting processes. Weld pore-free. 0% harmful effects. Excellent anticorrosives properties on all types of surfaces including zinc plated surfaces.

Format

Box 4 x 5 L

25 L

200 L

WS 1801 S/WORKS **BIO**

Non-flammable Antispatter.

High performance anti-spatter that provides a fast, easy and safe way to prevent spatter adhesion on any metal surface and all kind of torches. Biodegradable, compatible with painting processes. Weld pore-free. 0% harmful effects. Excellent anticorrosives properties on all types of surfaces including zinc plated surfaces.

Format

12 x 400 ml

WS 1802 G **BIO**

Special Robotics Antispatter.

100% Biodegradable synthetic product. Guarantees protection at maximum temperature. Very good atomization. Does not generate toxic vapors. Specially developed for use in robotics.

Format

Box 6 x 1 L

Box 4 x 5 L

25 L

CERAMIC ANTISPATTERS

TOP SALES

WS 1805 S

Ceramic Antispatter.

Innovative 100% ceramic anti-spatter coating, #1 in the world market. Creates an ultra-fast drying ceramic coating that protects surfaces and consumables for up to 8 hours. Outstanding temperature resistance up to 1200°C, oil-free and drip-free. Ideal for the protection of surfaces, positioners, parts, nozzles in MIG, MAG, laser and plasma welding processes.

Format

12 x 400 ml

WORLD NOVELTY

WS 1805 GEL

Gel Ceramic Antispatter.

Innovative anti-spatter gel 100% ceramic that protects treated surfaces for up to 8 hours. Extraordinary temperature resistance up to 1200°C. Manual welding.

Format

24 x 500 g

WORLD NOVELTY

NON DESTRUCTIVE TEST

WS 1820 S - CRACK 1
Red Penetrating Liquid.

Special red penetrant liquid for NDT tests. Inspection of welds, castings, forgings. Can be removed with water and solvents. It works with natural light. Excellent defect revealing characteristics.

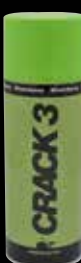

Format
12 x 400 ml

WS 1821 S - CRACK 2
White Developer Liquid.

Special white developer liquid for NDT tests. Inspection of welds, castings, forgings. Can be removed with water and solvents. Very fast drying special formula, reveals surface defects in a matter of seconds with unbeatable accuracy and reliability.

Format
12 x 400 ml

WS 3050 S - CRACK 3
NDT Cleaner.

Product with high cleaning power and fast drying, specially designed for cleaning NDT processes. It does not leave residues, stains and does not produce corrosion. Provided with 360° valve.

Format
12 x 400 ml

WS 1819 KIT
Red Penetrant, White Developer & Cleaner

At WS we like to go one step forward and combine quality with functionality, this is why we put at the reach of your hand a complete NDT Kit. We always focus on offering the most optimal and efficient solutions, so the users of our products have the best results.

With WS NDT Kit we provide the end user with everything needed to perform the perfect Non Destructive Testing, with total guarantee of results, because sometimes doing the whole process right is even more important than using the right products.

WhaleSpray

MAGNETIC PARTICLES NDT

WS 1825 S - CRACK 4 **Black Magnetic Particles.**

Special for NDT tests. Inspection of welds & cracks/defects by means of magnetic field. Suitable for all types of ferritic welded parts. High detection sensitivity.

Format

12 x 400 ml

WS 1826 S - CRACK 5 **Contrast Laquer.**

Contrast lacquer used in conjunction with CRACK 4 in the detection of cracks in ferritic dark parts. Its white color creates the necessary contrast to perceive the crack with the naked eye. Fast drying and easy removal.

Format

12 x 400 ml

MAGNETIC FLUORESCENT NDT

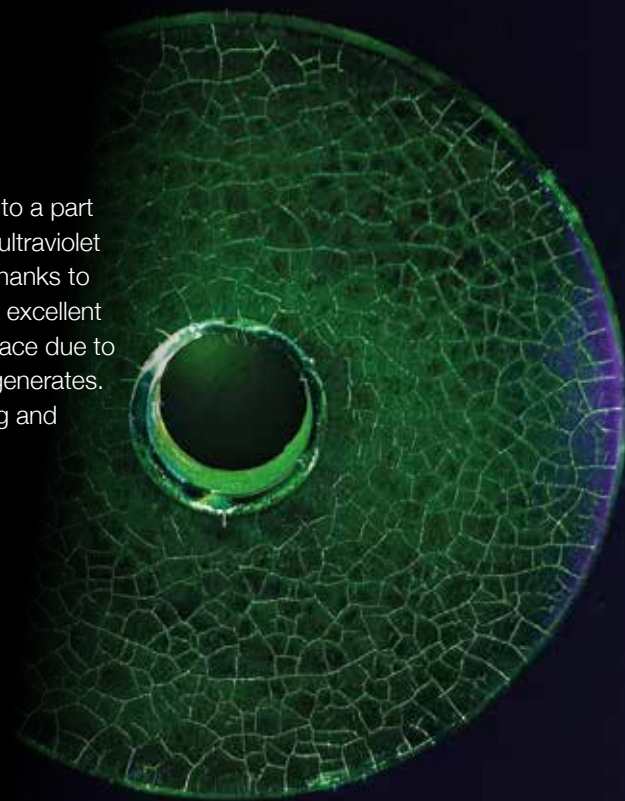

WS 1827 S - CRACK 6

Magnetic Fluorescent Particles

Fluorescent particles which, when applied to a part with a magnetic field and focused with an ultraviolet light, allows a very high level of detection thanks to the small size of the particles as well as an excellent visualisation of the flaws in the treated surface due to the fluorescent contrast that this product generates. Non-flammable, easy removal and cleaning and working temperatures from 0 to 85°C.

Format
12 x 400 ml

GAS LEAK DETECTOR

WS 1822 S

Non-flammable Gas Leak Detector.

Detects and locates gas leaks quickly and efficiently. Excellent leak visibility. Stable and safe, non-staining and non-corrosive. Formulated with nitrogen instead of other gases and classified as Non-Flammable.

Format
12 x 400 ml

CORROSION INHIBITORS

WS 1544 S

Pure Matt Zinc. 97% of Zinc in Dry Film.

Epoxy based anticorrosive coating with 97% pure Zinc in dry film. Protection on iron and steel. Elastic and dry film. Resistance to saline mist: >3000h.

Format
12 x 400 ml

WELDING SPECIALTIES

WS 3915 G -10°C

High Efficiency Torch Coolant.

High efficiency refrigerant specifically formulated and recommended for use in welding and cutting torches of all types, even in the most demanding working conditions. Increases the life of consumables (torch, ducts, pumps). Lubricates the pump, seals and seals, prolonging the preventive maintenance. Biodegradable. Withstands temperatures down to -10°C

Format
Box 4 x 5 L
10 L
200 L

WS 3915 G -20°C

High Efficiency Torch Coolant.

High efficiency refrigerant specifically formulated and recommended for use in welding and cutting torches of all types, even in the most demanding working conditions. Increases the life of consumables (torch, ducts, pumps). Lubricates the pump, seals and seals, prolonging the preventive maintenance. Biodegradable. Withstands extrem temperatures down to -20°C.

Format
Box 4 x 5 L
10 L
200 L

PRECISION CLEANERS

Format
12 x 400 ml

WS 3101 S - MASK CLEANER

Welding Mask Cleaner.

Special spray for cleaning and maintenance of welding masks. Easy to apply and suitable for all parts of the mask. Restores the original properties of the mask and provides a passive protective layer. Moisturizes the various plastic components and lubricates moving parts. Non-toxic to the welder and contains a pleasant scent.

WS 3102 S - SCREEN CLEANER

Electronic Screen Cleaner.

Special spray for cleaning electronic screens. Exclusive formula that guarantees a fast and deep cleaning. Controlled anti-drip foam + antistatic additive.

Format
12 x 400 ml

STAINLESS STEEL PICKLING SOLUTIONS

WS 3627 G SPRAY

Pickling for Stainless Steel.

Special pickling gel for stainless steel of all grades. Specific for spray pickling, very thixotropic with excellent adhesion, provides a uniform finish.

Format
30 Kg
220 Kg

WS 3610 GEL

Weld Bead Pickling Gel.

Pickling gel for all types of stainless steel and nickel alloys. It has a high effectiveness and pickling speed. Does not contain hydrochloric acid or chlorides. Its red color helps the operator to see where the product is applied.

Format
4 x 2 Kg
6 x 1,2 Kg

WS HEAT BARRIER

Format
8 x 500 g

**WS 3920 G
Heat Shield.**

Heat and flame protection gel for all types of welding processes and surfaces in general. Excellent adhesion even vertically, evaporates without leaving residues and is safe for the operator and non-toxic.

whalespray.com

STAINLESS STEEL SPECIALTIES

WS 3077 S

Stainless Steel Cleaner, Polisher and Protector.

Special for cleaning and maintenance of stainless steel surfaces. Cleans and polishes leaving an invisible film that prevents the reappearance of fingerprints and traces.

Format

12 x 400 ml

WS 3077 G

Stainless Steel Cleaner, Polisher and Protector.

Special for cleaning and maintenance of stainless steel surfaces. Cleans and polishes leaving an invisible film that prevents the reappearance of fingerprints and traces.

Format

4 x 5 L

25 L

Box 12 x 1 L
